Uncomplicated Sourcing Solutions

				
				
				
				
				
				
				

The Needle in the Haystack

Avant Electronics specialise in sourcing your component requirements by utilising an extensive Global network of current and obsolete electronic component suppliers.

Whether you are searching for Active, Passive or Electro Mechanical – end of life products, manufacturer allocated devices or simply searching for a better service – we at Avant Electronics will give your enquiry nothing but our absolute attention.

Avant electronics is built upon company values which include delivering quality product within the required lead time with service being paramount. As your reliable supply chain partner our aim is to build a long term business partnership.

Our highly experienced sales team has a comprehensive knowledge of the electronics industry spanning nearly 20 years, with an approach that can satisfy the demands of all types and size of business.
