Avant Electronics - Delivering a Responsible Environmental Policy

With current public opinion highly focused on the environment we are very proud to try and help make an impact on this issue, no matter how small!

As an independent distributor we will advise if any of the components supplied by Avant Electronics Limited conform to RoHS, Non-RoHS or exempt standards.

Where possible we will use recycled materials – from packaging to paper.

We will cut down on usage of water and electricity or try to use products that assist in our efforts.

Yours sincerely

James Tyler
Operations Director
