Conflict Minerals Policy

The Dodd-Frank Wall Street Reform and Consumer Protection act was implemented on the 21st of July 2010.

We at Avant Electronics whole heartedly support this act as an effort to try to stop the human suffering associated with mining of minerals and the electronic components industry.

As a distributor of electronic components and not a manufacturer we have no final say in the products we supply. Any effort on our part to support the Dodd-Frank initiative are whole dependent on the manufacturers whose product we supply.

Avant Electronics are aware of the importance of this issue and are fully committed to working with our customers to create a supply chain free of conflict materials.

Yours sincerely

J. Tyler
